Caran D'Ache: LUMINANCE 6901®

- Created for professional artists, designers and illustrators
- Complies with ASTM D-6901 the international standard for lightfastness
- **100 colors** in highly concentrated pigments, available in sets and separate colors
- Permanent, water-resistant leads that lay down smooth.
- 3.8 mm leads have high pigment concentration for bright and intense colors.
- Highly recommended for mixing, blending, shading, burnishing (with or without the use of white pencils) and gradations.
- Uniform color lay down with no "Wax Bloom"
- The round barrel features 8 ply construction for maximum strength and straightness.
- Constructed with premium grade California Cedar.
- Certified: FSC, Forrest Stewardship Council.
- Smooth lead requires the use of a sharp, high quality pencil sharpener.
