## FROM AN ARTIST'S SIGNATURE TO THE ART OF BEAUTIFUL WRITING

In that area of emotions where writing and images fuse together, the grace of a curving line, the energy in the stroke of a pen and the depth of a rich colour are among the elements that led Caran d'Ache to develop its passion for fine writing. Since 1915, steeped in the great traditions of Swiss Manufacturing, the company has created writing instruments, and a palette of colours, that are universally recognised symbols of excellence.

These reliable, precise and precious objects have acquired an international reputation for combining creativity and distinction with the use of noble materials.

To continue this policy, our Geneva workshops carefully preserve their independent spirit and their commitment to authenticity and ethical production.

## MANUFACTURED IN GENEVA WORKSHOPS

Caran d'Ache draws on a priceless heritage of technical expertise to preserve the art of handwriting. The company's writing instruments, globally recognised for their excellence, are entirely produced in Geneva. In the secret of their workshops, Caran d'Ache craftsmen boldly combine expertise and aesthetics in the great Swiss Made tradition. To create these emotive objects, which are also feats of technology, they offer original materials and perfect forms, giving writing an innate sense of refinement.

## CARAN D'ACHE, IN LOVE WITH COLOUR

The play of light on the material... its soft, velvety texture... the precious pigments brought from mysterious places... There has been a genuine love of colours, and the traditions of manufacturing them, in our Geneva workshops ever since our first pencil was produced nearby in 1915.

The fine, smooth leads, the subtly transparent watercolours and the brilliant, deep, light-resistant paints have been developed for creative professionals as well as amateur artists. They all reflect Caran d'Ache's exceptional Swiss Made quality and love of its craft.

As a Maison de Haute Ecriture, we respect nature as well as people. The premium-quality cedar used in our pencils is certified FSC, and our production of leads, pastels and paints carefully follows the principles of sustainable development.

# THE ART OF BEAUTIFUL WRITING

---

Just as the art of writing brings together characters, gestures and traditions, Caran d'Ache writing instruments represent refinement, creativity and expertise, all expressed with Swiss Made excellence.

For a century, Caran d'Ache collections have reflected the passion and the subtlety of fine writing. They are jewels of technology with inspired designs; emblems of excellence enhanced by rare and noble materials.

Lacquered, guilloched or polished bodies feel superb in the hand; rhodium-coated nibs or long-life tungsten ballpoints provide a great writing touch; contemporary or classic designs create a seductive visual appeal. Caran d'Ache writing instruments are treasures for all those who appreciate genuine distinction.

## THE ARTISTIC CRAFTS

### ENGRAVING

The fine engraving that characterises Caran d'Ache writing instruments is the product of patient, meticulous work. The company's innovative techniques of milling and engraving with lasers or diamonds make it possible to produce a large variety of outlines and reliefs that bring a design to life by creating a delicate play of light and shadow. Whether it is guillochage or personalised engraving, each piece receives the same attention to detail, making the finished instrument a treasure of refinement.

### POLISHING

A soft touch, comfortable writing and perfect design... sometimes sparkling, sometimes matt, each part of these Caran d'Ache products is carefully worked. All the writing instruments finished in precious materials are polished, which is also a very important operation when applying lacquer or Chinese lacquer.

### THE UNIQUE EXPERTISE OF THE LACQUER MASTER

A finish that requires exceptional precision, lacquer gloriously enhances a writing instrument with an incomparable brilliance and its large palette of tints that Caran d'Ache is constantly extending. Because preparing and applying lacquer requires such extraordinary skill, the work of the lacquer master is uniquely valuable. It demonstrates the company's commitment to authenticity and excellence in every product it creates.

### JEWELLERY

Setting diamonds, rubies, sapphires, emeralds, and engraving initials, a name, or even a short message... Caran d'Ache offers all lovers of rare objects the possibility of personalising their writing instrument. If they wish, they can choose the precious stones which will then be set by a Geneva jeweller. Each personalised writing instrument is numbered, engraved and accompanied by a certificate. Gemstones used by Caran d'Ache are from controlled, ethical sources, are not involved in the financing of armed conflicts and conform to United Nations resolutions.

---

## NOBLE MATERIALS

### PRECIOUS METALS: SILVER, RHODIUM, PLATINUM, PALLADIUM

Caran d'Ache creations in silver or solid gold are systematically controlled by the Federal Office of Metals and are certified with its seal. Gold is the metal used in the most beautiful work produced by Caran d'Ache craftsmen. Like real goldsmiths, they sculpt it, decorate it, engrave it and polish it.

But Caran d'Ache also explores other horizons with rhodium, the metal in the platinum family whose hardness and rarity make it twice as expensive as gold. Extremely strong, it enables writing instruments to keep their brilliance over the years, protecting them from corrosion and rust, as well as abrasion and tarnishing. Rare, pure and inert, rhodium is the most exclusive of the precious metals used by the company.

### CHINESE LACQUER

A natural, living product derived from the sap of the Rhus Verniciflua tree, Chinese lacquer regularly inspires the most beautiful Caran d'Ache creations. Using traditional expertise inherited from the great oriental masters, the company is one of the very few in the world to have the secret... and the patience. The multiple coats of lacquer are applied over a period of twelve days. Chinese lacquer, which may be natural colour or tinted with pigments of blue, black or red, embellishes lighters and writing instruments in the Varius collections as well as the Limited Editions.

# VARIUS

---

An accomplished form and hexagonal body with a unique feel... Caran d'Aché's iconic Varius collection is the result of our passionate work with materials; Chinese lacquer, carbon fibre, chain mail, ceramic and more recently genuine rubber echo the silver, rhodium or gold plated attributes of this writing instrument. A rare conjunction of striking design and superb writing comfort, Varius is the only collection to offer fountain pen nibs in six widths, turning the art of handwriting into a daily pleasure.

- Four writing instruments:  
Fountain pen, roller pen, ballpoint pen, mechanical pencil
- Brass body finished in various materials
- Flexible clip
- Silver, rhodium and gold plated attributes
- 18 carat gold nib available in six distinct widths: EF, F, M, B, OM, OB
- International lifetime guarantee
- Made in Switzerland

### **CHINESE LACQUER**

Caran d'Ache is proud to be one of the very few Western manufacturers of writing instruments to use this wonderful material. Chinese lacquer gives a magnificent finish to lighters and writing instruments in the Varius collection as well as some limited editions. This natural product is derived from the sap of the "Rhus Verniciflua" tree. Caran d'Ache's craftsmen have been inspired by the highly complex art of preparing and applying it in the manner of the great Eastern masters.

### **GENUINE RUBBER**

This material has a strong character and contemporary, urban elegance. Its inclusion in the Varius design promises an eminently masculine stroke. The brilliant rhodium contrasts with the soft matte rubber allowing the Rubracer to meet the demands and requirements of today's men. A screw inserted in the body of the pen, the newly articulated clip on the cap, and the broader nib confirm the Varius collection's energy and modernity.

### **CARBON FIBRE**

Carbon fibre is the epitome of a modern material. Its lightness and outstanding rigidity give it an immediate appeal and Caran d'Ache uses it to create a new, high-tech interpretation of tradition. Removed from its normal environment of top-level sports, and linked with silver-plated and rhodium-coated elements, carbon fibre brings power and strength to the Varius line.

### **CERAMIC**

For the past few years, high-tech ceramic has been employed in the production of watchcases. This material is highly valued by the watchmakers for its lightness, its resistance to scratches and its silky touch. When associated with metal, ceramic offers a subtle contrast of materials and an elegant lighting effect.

### **BLACK COAT OF MAIL**

The body of the Varius Ivanhoe Black is covered in a micro-woven coat of mail in deep black stainless steel (a Milanese sheath). Using a highly advanced technology, Caran d'Ache craftsmen have treated the steel to receive a black PVD coating that is both strong and beautiful. This process colours the fundamental structure of the steel giving it an extraordinary fineness that will remain eternally unchanged.

# LÉMAN

---

Ever since its creation in 1998, the Léman collection has paid tribute to the finest hues that nature can offer. In a wonderland of shades inspired by the pigments used in the Fine Arts products of Caran d'Ache, this collection captures the richness of the chromatic variations that enliven the shores of Lake Léman. Blue night, turquoise, cashmere, saffron... the colours of these writing instruments harmonise perfectly with the shiny precious metal trims. Recently, the Léman collection was enriched with an innovative creation, Léman Caviar, a product of the expertise of all the master craftsmen at Caran d'Ache, making the name of this collection a byword for incomparable quality and unparalleled writing comfort.

- Four writing instruments:  
fountain pen, roller pen, ballpoint pen, mechanical pencil
- Body and cap made of thick gauge brass in different colours and finishes
- Articulated clip, using a spring mechanism
- Gold-plated or silver-plated, rhodium-coated finishes
- Fountain pen nib in 18 carat gold, in four different widths: F, M, B, BB
- Lifetime international guarantee
- Swiss Made

# RNX.316

---

When Fine Writing instruments adopt high technology the result is the birth of a unique collection: RNX.316.

In its name, RNX indicates its combination of two body shapes: Round and hexagonal. These are emblematic of the Caran d'Ache collections – easy to hold in the fingers for precise control of handwriting – in a new design that is immediately appealing.

316 refers to its stainless steel, a strong corrosion-resistant material that is enhanced by a pure, polished finish to give the Fine Writing instrument an elegance that will last a lifetime. The RNX.316 incorporates the latest technical developments in Caran d'Ache expertise, making it one of the most distinctly modern of all writing instruments.

- Six writing instruments: fountain pen, roller pen, ballpoint pen, mechanical pencil, artist mechanical pencil, multifunction
- Body and cap made of steel 316L, polished or black PVD finish
- Flexible clip
- Innovative system for changing the ink cartridge
- Ingenious “click-in” system for closing the pen
- Steel nib coated in black PVD (sizes F, M, B)
- Strong material/contemporary design
- Lifetime international guarantee
- Swiss Made

### **316L STAINLESS STEEL**

The high-strength, stainless steel of the RNX. 316 collection guarantees that the writing instrument can withstand the stresses of repeated use. Its mechanical properties are complemented by its purity, created by precision polishing that immediately catches the eye. Its hardness produces incomparable writing comfort thanks to a fountain pen nib that is also composed of stainless steel.

### **BLACK PVD COATING**

In the PVD technique, the ceramic is applied by a physical vapor deposition process which gives it optimal adherence; a cutting-edge technique for these pens that, with their laser engraving, demonstrate innovation across the whole line. The stainless steel nib of the fountain pen is also treated by the PVD process which results in remarkable fluidity and writing comfort.

### 316L STAINLESS STEEL

The high-strength, stainless steel of the RNX. 316 collection guarantees that the writing instrument can withstand the stresses of repeated use. Its mechanical properties are complemented by its purity, created by precision polishing that immediately catches the eye. Its hardness produces incomparable writing comfort thanks to a fountain pen nib that is also composed of stainless steel.

### LASER ENGRAVING

Inspired by carbon fibre, the RNX.316 Fiber design weaves and dances whilst laser strength and precision make the engraving sublime. Different shades of colour are created by varying the intensity of the laser beam. Combining technology and design, this writing instrument is finished in polished steel that contrasts with the matte ornamentation. The black, PVD-treated stainless steel nib is available in three different widths. This highly technical design item is confident and modern.

# MADISON

---

Because the most effective icons are those that adapt to changing times, Caran d'Ache has carefully revisited one of its most famous collections, introduced in the 1970s. The elegant Madison retains its slender rounded body but has been given a jointed clip. A mechanism specifically developed for this new generation allows the ink cartridge or pencil lead to be removed with a simple press of a button. This timeless collection is now available in several versions – silvered with rhodium coating, gold-plated, or bicolour. It is a true classic, rooted in its time.

- Four writing instruments: fountain pen, roller pen, ballpoint pen, mechanical pencil
- Body and cap made of thin gauge brass, available in different finishes
- Articulated clip, using a spring mechanism
- Gold-plated or silver-plated, rhodium-coated finishes
- Fountain pen nib in 18 carat gold, in three different widths: F, M, B
- Lifetime international guarantee
- Swiss Made

# ECRIDOR

---

The name and design of the Ecridor collection have always symbolised the expertise of Caran d'Ache. Each line of this original collection features a different guilloche pattern, inspired by a particular theme. For example, the Ecridor Cubrik line features geometric and artistic motifs, while the pattern on the Urbaine line is derived from architecture. Sports are the inspiration for the elegant dynamism of the Ecridor Golf and Yacht Club models. And of course, we cannot overlook the classical patterns of the Ecridor Grain d'Orge, Chevron and Retro lines.

The new line Ecridor Mademoiselle is a welcome addition to the collection, with the elegant hexagonal silhouette of the pen embellished with a lucky charm. Whichever model you prefer, each line of the collection retains the elements that made it successful: a classical hexagonal shape coated in silver, rhodium, palladium or gold; also available in an XS-sized model.

- Four writing instruments:  
Fountain pen, roller pen, ballpoint pen, mechanical pencil
- Hexagonal brass body
- Flexible clip
- Silver, rhodium, palladium and gold plated attributes
- Steel nib available in three distinct widths: F, M, B
- International lifetime guarantee
- Made in Switzerland

---

# ECRIDOR GRAIN D'ORGE

---

Caran d'Ache has revised the Ecridor Grain d'Orge, in a tribute to the traditional craft of guilloche. Its body in solid silver, also called 925 silver, creates deep reflections, making it a truly high-quality writing instrument. The mark "Ag 925", stamped next to the clip, guarantees that the pen has been tested by a Swiss assay office and that the silver meets its strict criteria for fineness and purity.

- One writing instrument: ballpoint pen
- Hexagonal body in solid silver
- Flexible clip
- Lifetime international guarantee
- Swiss made

## CLEANING

# REFILLS

---

Writing comfort also applies to refills and particularly to the quality of the inks chosen by Caran d'Ache. A strict flow control ensures smooth, even handwriting with clean lines, in a large range of colours, over a long period. It is a technology that meets the very highest quality standards – the only standards recognised at Caran d'Ache.

## FOUNTAIN PENS

To satisfy the writing preferences of as many people as possible, Caran d'Ache fountain pens can be fitted with a piston ink pump or can accept ink cartridges.

## ROLLER PENS

Roller pen refills are produced in a similar way to the Goliath cartridge but contain a more fluid ink. The result is a level of writing comfort that is almost identical to a fountain pen. Roller pens can also accept fibre tip cartridges available in medium and fine sizes.

## BALLPOINT PENS

Caran d'Ache ballpoint pens are also carefully designed to provide great writing comfort. They are fitted with the famous Goliath giant cartridge that has the writing capacity to cover 600 A4 pages! To make it a particularly easy refill to use, the ball is fitted into its seat with great precision and its stainless steel and tungsten carbide composition enables it to lay down intense, regular lines on the paper. It is available in three writing widths: fine, medium and large.

## MECHANICAL PENCILS

Caran d'Ache expertise extends to mechanical pencils. They take leads of 0.5 mm or 0.7 mm which are advanced by a push button that is particularly easy to operate. Since the company is very familiar with the needs of artists, they are not forgotten: a choice of 2 mm coloured leads is available for them.

- Ink conforms to ISO 12757-1-2 standards
- Caran d'Ache ballpoint pen cartridges have a stainless-steel tip housing a rotating ball made of tungsten-carbide, a metal alloy as hard as a diamond
- Highly precise assembly of the ball into its seat in order to guarantee regular and smooth writing
- The ink flow of each cartridge is tested before it is approved for sale
- Caran d'Ache leads have a high resistance to breakage and provide smooth writing action

# CHROMATICS

---

Within each new Caran d'Ache ink lies the expertise of a unique savoir-faire: the science of colours.

Vibrant. Deep. Powerful. Sustained. From a bursting red to a radiant purple, from an empyreal turquoise to a fiery orange, Chromatics INKredible Colors impose their noble marks across the entire spectrum of light.

Every inkwell is a prism, playing with the reflections of the light and intensifying the colour that it holds inside. Each personality submits to the caprices of evocative names that entice one inescapably away to voyage and discovery. Beyond their colours, the characters assert themselves through to the tip of the pen, and breathe life into the very page.

The Art of Fine Penmanship is adorned in a colourful finery that vivifies the most beautiful pieces of written work.

- 12 colours
- 50 ml ink bottle, with a hexagonal cap and inkwell
- Ink bottle also available in sets of 6 or 12 colours
- International ink cartridges (6 pieces per pack)

# BELTS

---

In matters of elegance, the little details can make all the difference. Caran d'Ache appeals to seriously elegant men with this new collection of reversible saffiano belts in black leather, camel, or black and brown bicolour. Their design matches the motives of certain collections of writing instruments. From the unmissable retro style of the Type 55 belt, to the contemporary spirit of the Carbon or Classic belts, Caran d'Ache has used all its expertise to develop these top-of-the-range accessories that are made from the finest leathers and fitted with metal buckles coated in palladium.

- Reversible colour belts
- Length adjustable by strap cutting process
- Buckle in strap-cutting, palladium-plated brass
- One-year international guarantee from the date of purchase
- Manufactured in Italy

# SERVICES

---

Joining the world of Caran d'Ache means choosing to provide guaranteed high-quality service – an undertaking that our company has met every day since 1915. Following up each order, and welcoming and listening to each customer are both particularly important. The expertise inherent in Caran d'Ache products is matched by a range of services that are committed to achieving the highest standards of perfection. Engraving and personalisation, meticulous packaging, an international guarantee, a user instruction manual stamped at the time of purchase, and after-sales service all demonstrate the determination of Caran d'Ache to deliver customer satisfaction through a very selective international network of retailers.

---

# PERSONAL ENGRAVING

---

Many Caran d'Ache writing instruments can be engraved on request to one of the brand's authorised retailers. The company's craftsmen are careful to create a space reserved for personalised engraving on the side opposite the clip. Here the customer can be very imaginative: a name, a date, or a message make the writing instrument a highly personal object, unique and unmistakable.

---

# CORPORATE GIFTS

---

The name itself represents a prestigious, educational world and is now a synonym for excellence and creativity. More than simply a brand, the Swiss company has imposed its own style: a "Maison de Haute Ecriture".

With more than 200 writing instruments for both top-of-the-range luxury market and for the office, Caran d'Ache can propose many personalised gifts which are sure to capture attention. If you wish to thank your clients and keep their loyalty, or invigorate your sales team, have a look through our special catalogue and ask us for a quotation.

---

# INTERNATIONAL GUARANTEE

---

Lovers of handwriting often develop a real attachment to their pens. For this reason, our after-sales technicians do their very best to repair them whenever possible, only replacing them as a last resort. Repairs under guarantee are free of charge and other repairs are only carried out after the client has accepted a cost estimate.

Caran d'Ache writing instruments are inspected and tested at each stage of production. When they leave the Geneva workshops they are in perfect condition and are guaranteed against any manufacturing defects. An international guarantee certificate accompanies each instrument.

## HOW TO FILL IN THE GUARANTEE CERTIFICATE?

- Product: product reference
- Date of purchase: month / year
- Finishing: gold, silver, gold-plated, silver-plated, palladium-coated, platinum-coated etc.
- Dealer's stamp: from the retailer

---

# PACKAGING

---

To meet the needs of our partners and their customers, Caran d'Ache provides easily identifiable packaging for each of our writing instruments with a consistent choice of colours, optimal sizes, designs and top-of-the-range materials. Silver, black, or onyx wrapping with the Caran d'Ache logo in hot silver makes a high-quality presentation for all the writing instruments and its uniformity reinforces the brand image we have carefully created over several generations.
