To guarantee creative professionals the permanence of their artworks, **Luminance 6901** colored pencils combine the highest lightfastness with the smoothness of a permanent lead in **76 colors** and conforming to **ASTM D-6901**. Today, this artists' pencil is like no other as it offers a new and resolutely modern package in revised assortment quantities. This is an invitation to discover the secret of the light loving colors of Caran d'Ache.

Caran d'Ache:

LUMINANCE 6901

Created for professional artist, designers and illustrators

Complies with the highest international standard for lightfastness, ASTM D-6901

76 colors in highly concentrated pigments, available in sets and separate colors

- Permanent, water-resistant leads that lay down smooth.
- 3.8 mm leads have high pigment concentration for bright and intense colors.
- Highly recommended for mixing, blending, shading, burnishing (with or without the use of white pencils) and gradations.
- Uniform color lay down with no "Blooming"
- The round barrel features 8 ply construction for maximum strength and straightness.
- Constructed with premium grade Cedar.
- Certified: FSC, Forrest Stewardship Council.
- Conforms to ASTM D-4236.
- Smooth lead requires the use of a sharp, high quality pencil sharpener.

- 2.) FSC cedar wood of premium quality, round pencil
- 3.) Indicator of LFI or LFII lightfastness (standard ASTM D-6901)
- 4.) Brilliant pencil cap is true to the color of the lead

Techniques:

Artist's secrets

Nicole Caulfield realizes a technical composition with 3 of Caran d'Ache complementary leads: Supracolor Soft, a watercolor lead, Pablo, a dry permanent lead and Luminance 6901, a smooth and permanent lead.

Applied wash

Supracolor pencils are great for applying a soft wash tint on the sheet of paper, creating beautiful base colors.

Undulating surfaces

Undulating effects using both Luminance 6901 and Supracolor for "wet on wet" and "dry on wet" techniques.

Shading and volume effects

Luminance 6901 can be applied, without altering the watercolor areas, to create dense coloring of certain parts of the vase to accentuate the volume and intensify shadows.

Final details

Pablo colored pencils can be used with Luminance 6901 to add more colors, angles and final details.
